WASHTENAW COUNTY PUBLIC HEALTH

Immunization Fee Schedule

Effective January 1, 2013

Prices subject to change

The Washtenaw County Health Department is a Medicaid provider and must charge comparable fees to all participants. Our fees include an administration fee ($10 for children and $15 for adults) per injection *and* the cost of the vaccine(s).

Persons who are Vaccine For Children (VFC[1]) Program eligible have the cost of their vaccine covered and will be charged administration fee(s) only ($10 per injection).

The Public Health Dept does not bill private insurance; however, some insurance providers may reimburse you for some of the costs. We will give you a receipt, but it is your responsibility to contact your insurance company to determine coverage and request reimbursement.

Vaccine:	***Cost for Child:***		***Cost for Adult:***
