**RE:** 2009 Washtenaw County Bloodborne Training CD Program

Washtenaw County is pleased to share the enclosed Bloodborne Infectious Diseases (BID) CD training program with your agency. This BID CD training program has been created specifically to meet Washtenaw County training requirements for Bloodborne Infectious Diseases training. All new permanent County employees must first attend a "live" Bloodborne session prior to becoming eligible for this annual CD refresher course.

Please note that, while this is a very comprehensive Bloodborne training CD program, Washtenaw County is not able to certify that this CD training program will meet the specific needs of your agency for this training topic. By using this Bloodborne CD training program, your agency is accepting responsibility for its content and any issues that may arise from it, and agrees to hold Washtenaw County harmless for any resulting actions.

Please allow 30 minutes to complete this training session via your computer. A class certificate will print upon completion of a final quiz at the end of the training program.

We hope you find this new CD training product a useful tool for learning. Please feel free to contact Washtenaw County Professional Development at 973-4590 if you have any questions about this computer based Bloodborne training, or if you would like assistance getting started!
