

BUDGET SUMMARY

This section presents a comprehensive picture of Washtenaw County's 2012 and 2013 adopted budgets. It also provides a summary of the changes that have occurred within the general fund, and all other county funds.

Page 98 presents the combined total of all governmental funds, which for 2012 is \$206,229,590 and is \$198,182,421 for 2013, net of intrafund transfers and charges. An analysis of the general fund begins on page 104, and contains a comparison to past years, a breakdown of revenues and expenditures, distribution of appropriations, and budget projections through 2015. Revenues are shown by source, such as taxes & penalties and licenses & permits, while expenditures are listed by governmental function, such as public safety, and general government.

This is followed by a review of the long-term forecasts for the county and an overview of the county's cash flow. FTE (full-time equivalent) position breakdowns are provided for both the general fund and non-general fund units to demonstrate the changes in positions over time.

The section ends with an overview of each county fund as outlined in the 2012/13 Budget Resolution. This is not a reflection of all county funds, or even all funds contained within the county's annual financial report. Some smaller grants are excluded from the budget analysis as well as one-time capital initiatives except through the inclusion of any debt service pertaining to the project.

Additional budget and position information is included for each county operating department under the Departmental Summary section of this document beginning on page 191.

TOTAL	206,224,391	214,266,108	206,229,590	198,182,421

VARIANCE ANALYSIS

Revenues

Taxes & Penalties: Decline in the economy and housing market leading to significant declines in property tax revenue for all funds as explained further in the Revenue Discussion section.

Federal, State & Local: Changes in revenues for many non-general fund (NGF) grants, including federal stimulus funding that is not expected to continue.

Fees & Services: Increase in police services contract price in the general fund (GF) and adjustments in fee schedules and collection efforts in all funds.

Other Revenue & Reimbursements: Use of Revenue Sharing Reserve Fund for transfer to GF as well as budgeted use of fund balance and contingencies within parks & recreation.

Expenditures

All: Decreases in personnel costs related to labor concessions for fringe benefit and salary reductions. The other category reflects the savings from anticipated labor modifications and attrition.

General Government: Increased cost for information and technology leased equipment and maintenance agreements.

Public Safety: Increases predominately due to rising personnel costs as well as an increase in operating costs related to the jail and police services contracts.

Social Services: Expenditure changes mirror federal revenues especially related to federal stimulus funding for weatherization and neighborhood stabilization programs.

Cultural & Recreation: Fluctuations are within the county's parks department in alignment with their master plan.

**2012 Governmental Funds Budget
\$ 206,229,590**

VARIANCE ANALYSIS

General Fund: The county budgets for a \$250K surplus annually to maintain fund balance at 8% of operating budget net of indirect costs. In 2012 the county plans to carry-forward a surplus from the early implementation of budget solutions to balance the 2013 fiscal year.

Housing Contingency: The general fund appropriation for housing has been reduced with the planned use of fund balance to retain previous commitments to various housing initiatives.

Parks & Recreation: By policy the Parks & Recreation Commission may use its fund balance as it determines appropriate. Fluctuations are common as major capital renovations and acquisitions occur.

Public/Environmental Health: Planned use of fund balance in both 2012 and 2013.

Head Start: Planned use of fund balance as the county is in the process of relinquishing the grant.

Revenue Sharing Reserve: Drawn down annually in lieu of State of Michigan Revenue Sharing until the fund balance is exhausted.

Capital Projects: Planned contribution to fund balance for use for future capital renovations or acquisitions.

VARIANCE ANALYSIS**Revenues**

Taxes & Penalties: Projecting decline in property tax revenue of -5% in 2012 and -2% in 2013.

State & Federal: Budget is based on conservative estimates of state funds, predominately within the courts.

Fees & Services: Increase in sheriff road patrol contract price of 0% in 2012 and 1% in 2013; other miscellaneous fee increases based on trends and fee schedule adjustments.

Other Revenue & Reimbursements: The increases in 2011 and 2013 are due to the planned use of fund balance through the early implementation of budget reduction solutions in 2010 and 2012, respectfully.

Net Transfers: The projected decline in 2013 demonstrates that only a partial year of revenue sharing is available for transfer from the reserve fund.

Expenditures

All: Most county departments and elected offices had budget reductions as outlined in this publication.

Legislative: The Board of Commissioners (BOC) decrease in 2013 is capturing the reduction of two commissioners due to apportionment redistricting.

General Government: Primary variances from year to year are a result of software maintenance agreements and leased information and technology equipment.

Public Safety: Increases due to rising personnel costs as well as an increase in the operating budget for staffing and operating cost increases related to the jail and additional police services contracts.

Culture & Recreation: Change reflects how Michigan State University-Extension is funded at the state level. The county has opted to reduce its support down to the minimum level required by the contract.

Reserves: This category is used to budget for the planned contribution to fund balance and the BOC unearmarked reserve. In addition for 2012 and 2013 it contains estimated savings from modified labor contracts and attrition. For 2012 there is a planned carry forward of surplus to 2013 due to the early implementation of budget solutions.

Costs Allocated to Other Departments: This category contains the estimated cost allocation plan (CAP) credit to the general fund for general government services. The amounts in 2012 and 2013 are larger due to the county no longer waiving or freezing the CAP to ensure consistency and fairness between all departments.

Appropriations: Many reductions were implemented as part of the budget solutions for 2012/13, including a significant shift in county financing for mental health services and two years of continued reductions for infrastructure allocations.

General Fund Long-Term Forecast

The projection on the next page represents the product of the 2012/2013 budget process, as discussed in the Transmittal Memorandum (page 19 - 26). The Board of Commissioners adopted a balanced budget as shown for the 2012 and 2013 fiscal years. These budgets are based on many assumptions using available information at the time of budget development. A primary assumption is the level of property tax the county will receive, which will not be known until four months into each fiscal year. Also as described in the Transmittal Memorandum, the stability of the future largely resides on the State of Michigan to reinstate revenue sharing once the county's revenue sharing reserve fund is depleted in 2013. The State has started to do this for other counties throughout the state as their funds have been depleted prior to Washtenaw County's, although there is not a guarantee that the State will have enough funds to do this in the future given their own financial realities. The projections demonstrate a long-term structural budget problem. The county took great efforts to balance 2012/13 as a second phase of managing the economic downturn.

The graph below gives a historical representation of the growth of the county's general fund budget, both in actual dollars and adjusted for inflation. This graph demonstrates clearly that while the general fund budget has steadily increased over the years, it has remained essentially flat in terms of real dollars. The decline due to the economic downturn was beginning to be reflected in fiscal years 2008 and 2009 and is continuing.

2014/15 Projected Budget Assumptions

On the revenue side, the major assumption is that property taxes will stabilize at 0% for 2014 and 2015. A recovery from the declines projected for 2012 and 2013, -5% and -2% respectively. Other revenue including fees and fines are estimated to remain relatively flat. These projections assume the State of Michigan will not reinstate county revenue sharing when the reserve fund is depleted, as originally promised when the reserve funds were established.

For expenditures, the assumptions take into consideration conservative wage adjustments in alignment with the labor agreements reached with the unions that have settled, but with growing fringe rates based on trends, currently projected to be 12% annually. Other operating costs are projected to be relatively neutral as it is assumed that the organization will continue to operate with a constant pressure to contain costs as much as possible. Next to personnel, the largest portion of the general fund budget comes through its appropriations to programs outside the general fund. The projections are built on a revised policy to no longer automatically provide appropriation increases for personnel cost growth except where required to do so under statute. It has helped to reduce the projected deficit within the general fund, and yet this shift in approach may be difficult to realize if these non general fund programs are faced with drastic service reductions if additional support is not provided.

General Fund Financial Condition Resulting from the Approved 2012 Budget

In the past, the primary source of county revenue, the property tax, was due at the beginning of each fiscal year. Over 90% of it was collected in the first four months of the fiscal year, assuring that there would be no need for short-term borrowing to meet cash requirements during the fiscal year. However, with the State of Michigan’s adoption of the tax timing shift for county property taxes from a winter tax levy to the summer, this scenario has changed. In the new law, the tax timing shift was phased in over a three year period from 2005 through 2007. Since 2008 100% of the county property tax collection have taken place during the second half of the year. A portion of the revenue gained during the three year phase in period was to be placed in a reserve fund to pay for county revenue sharing (see page 179 for more information).

Two cash flow graphs are provided below, with the first demonstrating the revenue collection and expenditure patterns under the prior methodology with a December tax levy, and the second showing the impact of the law change once fully implemented to a July tax levy. As can be seen below and on the following page, the property tax shift has greatly impacted the county’s cash flow projections; however, the law stipulates that the county is able to use the reserve fund to handle cash flow issues that arise from the law change. Once the revenue sharing reserve fund is depleted in 2013, the county will have a cash flow issue and will have to determine appropriate actions to remedy this new reality. A thorough review of the long-term cash status of the county is underway and a new general fund cash management policy will be brought to the Board of Commissioners for consideration.

Cash Flow with December Tax Levy

As stated on the previous page, the county is projected to run a negative cash balance unless it transfers cash from the revenue sharing reserve fund into the general fund, as allowed by the state under the property tax timing shift provisions. The county intends to do this until the reserve fund is depleted.

Download Date 7/19/10

The county's position control system of assigning FTE to business units is modified regularly based on BOC adopted resolutions throughout the year and Administration action.

The download date demonstrates the snapshot taken and reflected in the numbers shown.

Overview of Each Fund within the 2012/13 Budget

The following pages contain the county's 2012/13 budget for each funding unit as reflected in the Budget Resolution (page 30) by revenue and expenditure category. Financial information includes the prior completed fiscal year (2010), current year projected revenues and expenditures (2011), and the budgets as adopted by the Board of Commissioners (2012 and 2013). At the bottom of each fund breakdown is the anticipated changes in fund balance. It is important to note that the 2011 data was projected as of July 2011. Final year end fund balance will be determined as part of the annual audit process in 2012.
