A RESOLUTION TO PETITION THE MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY TO DENY A PERMIT FOR THE COLT FARMS DEVELOPMENT WASTEWATER TREATMENT FACILITY

Washtenaw County Board of Commissioners

September 6, 2006

WHEREAS, the Washtenaw County Board of Commissioners supports the recommendations of County Land Use Policies in *A Comprehensive Plan for Washtenaw County* and its goals to protect water quality and natural resources, contain sprawling development patterns, and enhance quality of life for its residents; and

WHEREAS, Colt Farms Incorporated has applied to the Michigan Department of Environmental Quality for a permit to build and operate a private wastewater treatment facility for the Colt Farms Development in Ann Arbor Township; and

WHEREAS, seventeen communities in Washtenaw County and Wayne County have been working to reduce phosphorus levels in the Huron River since 1994, principally at local expense. This wastewater treatment facility would increase phosphorus levels, impairing the efforts of the communities; and

WHEREAS, under State Act 451, R 323.1098, Antidegradation; Rule 98 (2) states: "For all waters, the level of water quality necessary to protect existing uses shall be maintained and protected. Where designated uses of the water body are not attained, there shall be no lowering of the water quality with respect to the pollutant or pollutants that are causing the nonattainment;" and

WHEREAS, the amount of phosphorus that can be discharged to the Huron River is restricted through a Total Maximum Daily Load (TMDL) and a new discharge that will add any phosphorus should not be considered without a clear policy or procedure for evaluating the effect of such discharge on the already impaired uses of the Huron River; and

WHEREAS, the Governor's Land Use Leadership Council recommends against sprawl into undeveloped lands. Infrastructure projects like this one are known drivers of sprawling development into rural areas; and

WHEREAS, the Ann Arbor Township General Development Plan designates the proposed area as Agricultural Production and is in the Agricultural Preservation Overlay District to encourage the long term agricultural use of the property; and

WHEREAS, this land use approach is also supported by the Washtenaw County Comprehensive Plan, which designates the property for rural residential development and also in the County's Agricultural Preservation Overlay Area to avoid overburdening existing infrastructure, encourage the long term viability of agricultural operations, and avoid damage to the natural environment; and

NOW THEREFORE BE IT RESOLVED that the Washtenaw County Board of Commissioners, for the reasons above, and in accordance with County Land Use Policies, concludes that the proposed development will adversely impact the social and economic viability of Washtenaw County and urges the Michigan Department of Environmental Quality to deny the permit for the Colt Farms Development Wastewater Treatment Facility in Section 6 of Ann Arbor Township.

BE IT FURTHER RESOLVED that the Board of Commissioners directs the County Clerk to forward copies of this resolution to the Michigan Department of Environmental Quality and Ann Arbor Township.
