

Compliance Quiz (True or False)

Please complete the quiz and give to your supervisor/trainer. Then sign the statement on the next slide and give that to your supervisor/trainer.

T People receiving services have a right to know if the information in their Electronic Health Record has been breached.

T Anyone can bring a false claims suit if they suspect a provider is committing fraud

F Staff who file a suit under the Federal/MI False Claims Act cannot be charged with fraud if the staff reporting it took part in the accusation or made false accusations

T Your employer cannot retaliate against you/your job for reporting fraud or participating in an investigation/legal process

F It is ok to for providers to give each other rewards/money for making or getting consumer referrals

T If a provider/person is found guilty of fraud, they have to pay financial penalties/fines and may go to prison

T Medicaid Integrity means making sure Medicaid monies are being spent the way they are supposed to with the services we provide to consumers

T Billing for a service that you didn't document could potentially be fraud

T Providing a service that's not medically necessary could potentially be fraud

T Not having a current treatment plan/individual plan of service while still providing services could potentially be fraud

F Being reimbursed for expenses (such as mileage traveled in your own car) that **are** related to your job function could be fraud.

T If you suspect any type of fraud you must report it right away to the local Compliance liaisons or the Chief Compliance Officer
