

Medication Recertifications are scheduled for the first Wednesday of each month at LLRC. Refresher certification can occur at a group home or other location if the RN and provider arrange it. The monthly session is to guarantee the recertification has a minimum of offerings. Providers are expected to have the recertifying staff view the Medication Refresher Power Point PRIOR to attending a scheduled session! The RN facilitating the session should use a sign-in sheet for the staff to enter their name and their Employer/supervisor contact information. Staff that do not pass the recertification test will not receive a certificate, and RN should notify the staff employer (provider/supervisor).

When	Where	Who	Notes
July 1, 2009	LLRC Room B 10-11 am	Kevin Donnelly RN
