

A24: Dexter Village

Drinking Water: Well Information

None.

Drinking Water: Consumer Confidence Report Summary

Dexter Village: Water comes from three wells, each at a depth of approximately 200 feet. All wells are located within the community boundaries. Water is pumped to the Village's iron removal plant where it is aerated, filtered and disinfected. Then it is pumped into the water tower where it is ready to be used by the public. No fluoride is added as it occurs naturally in the water. Contact: (734) 426-4572

Surface Water Features **Huron River, Mill Creek.**

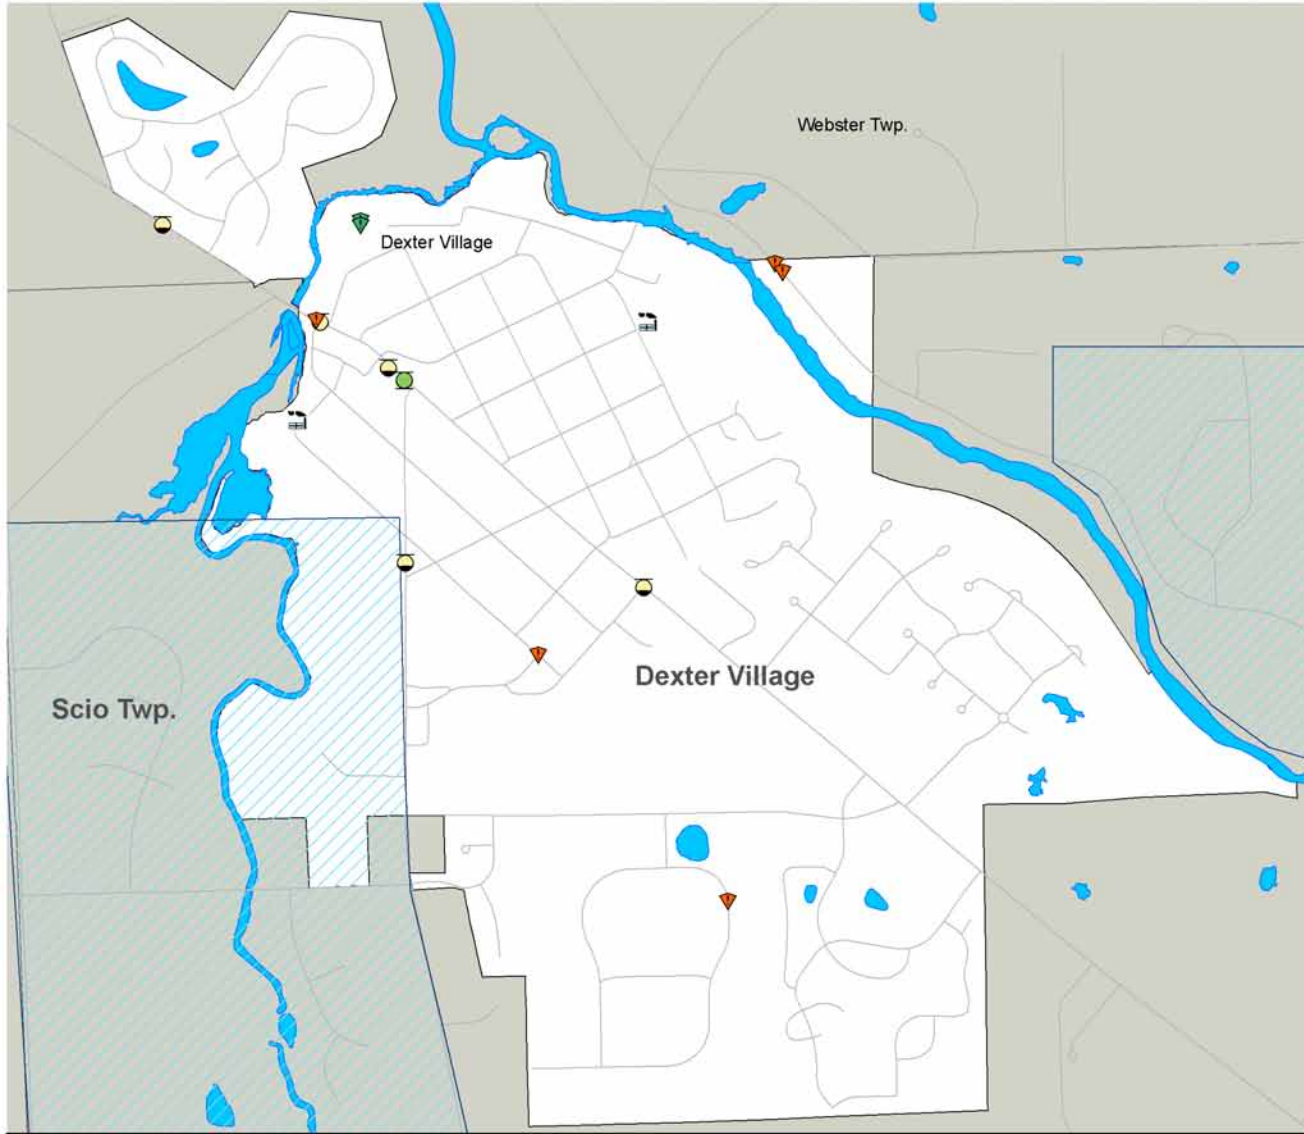

Local Indicator Data

Dexter Village has no TMDL sites. It has two Part 201 Sites. It has five NPDES permits for storm water and two NPDES pollutant discharge permits. Dexter Village has four UST sites, six LUST, and one AST sites.
