

- 2003 - Corvids* Reported -- Washtenaw County (As of December 8, 2003)

Legend

Corvids* Reported for West Nile Virus (n = 172)

-  Not Tested
-  Tested - Positive (n=3)
-  Tested - Negative (n=7)

 City / Township Boundaries

*Corvids are birds from the family Corvidae
e.g., crows, ravens, and blue Jays.

Notes: Dead corvid sightings are a possible early warning of, but not definitive confirmation of, West Nile virus Activity.

Corvids (birds) die of many causes, and reporting levels may vary among townships and zip codes.

Data collected from the Washtenaw County West Nile Virus Hotline - (734) 544-6750 and the MDNR West Nile Virus Sick and Dead Bird Observation Report Form, online at <http://www.michigan.gov/westnilevirus>
