**Replace page 3 of the proposal with the attached page 3.**

**All other specifications remain the same.**

---

**Anne Strieter, C.P.M.  
Senior Buyer**

cc: Bid #6162

#### V. Database Management

A template of the MS Access database from previous IDEP work will be provided by the Washtenaw County Drain Commissioner's Office. The consultant shall maintain a similarly formatted project database for Malletts and Allen Creeksheds. Each new set of data collected will be added to the database promptly and uploaded to the County FTP server. The data should be managed by personnel with expertise in MS Access, ArcView and GPS hardware and software.

#### VI. Project Management

For effective project coordination, the project manager will be expected to communicate frequently. Assume that 20 one-hour progress meetings will be required in the Ann Arbor area. Brief monthly progress memos will also be required to be included with invoices. Costs for work in Malletts and Allen Creekshed are to be tracked and invoiced separately. The consultant is expected to be available to communicate via phone and email during the course of the project.

#### **Purpose of Proposal:**

The purpose of the proposal is to implement a requisite element of the County's Phase II storm water permit, the *Escherichia coli* (*E. coli*) Total Maximum Daily Load Implementation Plan for Geddes Pond, and Clean Michigan Initiative grant Illicit Connection Elimination in Malletts and Allen Creekshed. The TMDL document, including previous *E. coli* sampling data can be found on the web at:

<http://www.deq.state.mi.us/documents/deq-swq-gleas-tmdlgeddes.pdf>

Additional site information about the two creeksheds is available at:

[http://www.ewashtenaw.org/government/drain\\_commissioner/dc\\_idep.html](http://www.ewashtenaw.org/government/drain_commissioner/dc_idep.html)

At bidders' request, a copy of the Allen Creek grant has been made available at the hyperlink immediately above this paragraph. The Malletts Creek work plan is similar. Neither grant budget was included. There is a combined total of approximately \$625,000 remaining for contractual work.
