

# Urban Service Districts

**Description:** Develop a consensus building process and local information required to take regional planning efforts to the next level. Develop regional land use, provision of services and revenue sharing arrangements.

**Partners:** Washtenaw County Planning and Environment and Zoning Center

**Status:** Scope under development

## **Comprehensive Plan Reference**

### *Landscapes Objective 1*

Promote higher density infill development and redevelopment within existing cities, suburban areas, and smaller cities and villages and areas surrounding them

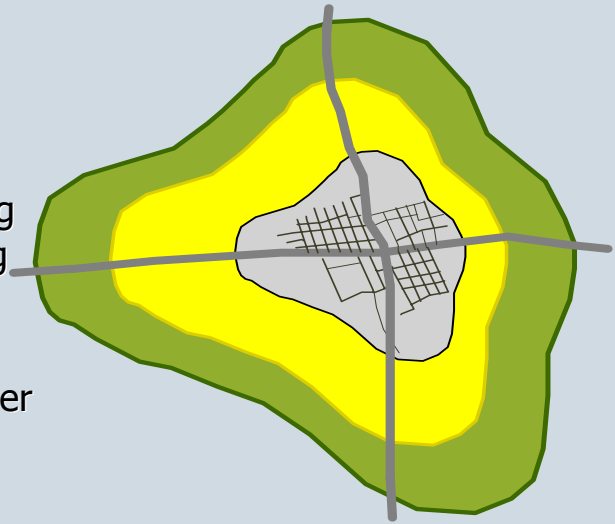

Recommendation 1.7 – Encourage infill development within villages and surrounding villages at traditional village densities (e.g., six dwelling units per acre).

Recommendation 1.8 - Encourage villages and surrounding townships to develop Urban Service Districts surrounding villages to plan for the water, sewer and transportation services needed for higher density development.

### *Landscapes Objective 3*

Maintain our rural sense of place through land use techniques, economic viability of agriculture and alternatives that provide rural tax base for local governments.

Recommendation 3.3 - Encourage villages and surrounding townships to develop Urban service Districts surrounding villages to plan for water, sewer and transportation services needed for higher density development.
