### Program Management

**Payment Mechanism:** Residents pay as part of taxes; Barton Hills pays tipping fees to Onyx upon delivery. Program is currently operating in the red.

**Education:** Quarterly newsletter, information booklet

### Recommendations:

1. Study with neighboring communities the formation of an urban area authority or joint contracting group that would lead to better prices, services and incentives, and fully utilize the solid waste infrastructure.
2. Incorporate waste volume control measures (such as set out limits and PAYT) to increase participation in diversion programs.
