

FACES OF

INFLUENZA™

American Lung Association's
Influenza Prevention Program

In collaboration with sanofi pasteur

Who do you see when you look in the mirror? Are you a "face" of influenza?

Chances are you or someone you know are among the many "faces" of influenza — people who should be immunized this and every year.

Influenza is not the common cold. It's serious. In fact, annual influenza vaccination is recommended for nearly 250 million people in the US.¹

That is more than 4 out of every 5 people.¹⁻³

Join the Washtenaw Immunization Action Coalition in a discussion about the importance of influenza vaccination in protecting you and your loved ones this season. Meetings will take place at the following locations:
