

WHAT IS MOMS?

MATERNITY OUTPATIENT MEDICAL SERVICES:

A health coverage program which provides prenatal and medically necessary ambulatory postpartum care to women who would not otherwise qualify for this coverage through the Medicaid Program.

Note: Some women on the MOMS program are waiting on their Medicaid eligibility.

As a qualified agency, the WIC Office will provide the applicant with a Guarantee of Payment Letter (GPL) on the day they apply. The GPL covers the 45 day period following the application date.

This letter allows the beneficiary to receive immediate medical care for your pregnancy until your MOMS or Medicaid eligibility has been determined.

Some examples of covered services

Pre-natal care

Prescription vitamins and pharmaceuticals

Laboratory

Radiology and ultrasound

Childbirth Education

Maternal support services

Outpatient hospital care
