

# Washtenaw County Public Health Programs and Services

Visit <http://publichealth.ewashtenaw.org> for more program and service information.

**Services are subject to change: Call to confirm.**

**Parking is available in the Center Street lot.**

## **Adult Clinic**

**(734) 544-6840**

Call to schedule an appointment. Free, anonymous and confidential HIV counseling, testing and referral services. Free testing, treatment and partner notification services for sexually transmitted diseases. Medicaid waiver "Plan First" program: Family planning (birth control) and well women exams (pap smears). Call for information about application process. All HIV and STD services are by appointment only. Free pregnancy tests are offered on a walk-in basis on Wednesdays only. The human papillomavirus (HPV) vaccine is offered to underinsured and uninsured women ages 19 to 26 years; girls ages 11 to 18 years who are VFC eligible will be served by Immunization Services.

## **Children's Special Health Care Services**

**(734) 544-6700**

Services provided for children with qualifying medical conditions. Payment for specialty medical care and equipment, care coordination, parent support groups and public health nursing services are available.

## **Communicable Disease and Tuberculosis**

**(734) 544-6770**

Information, education, follow-up and reporting of communicable diseases provided. Services includes the diagnosis and treatment of tuberculosis cases and contacts.

## **Community Crisis Response**

**(734) 544-6700**

Trauma and grief specialists are available to respond to community needs following traumatic events. Crisis intervention services include: Individual, small and large group responses, consultation and coordination, disaster and crisis response planning and training in numerous aspects of crisis preparedness and intervention.

## **Health Education**

**(734) 544-6700**

Education for the community on: Substance abuse prevention, tobacco cessation and the County's Clean Indoor Air Regulation, increasing physical activity and healthy eating and preventing communicable disease. Other health topics may be available upon request.

## **Health Improvement Plan (HIP)**

**(734) 544-6700**

HIP is a community health assessment and planning effort aimed at improving the health of county residents. HIP tracks a wide variety of health indicators by conducting a countywide health survey every five years and collecting other health data. Through HIP, the community can access health data, learn about best practice approaches for addressing health issues and network with diverse organizations from across the county.

**Hearing and Vision** (734) 544-6786

Screening is done for children in schools, nurseries and day care centers. Referrals for physicians and parents are available. Daytime appointments are available.

**Immunization Services** (734) 544-3066

Vaccinations given to prevent communicable diseases: Measles, mumps, rubella, polio, diphtheria, pertussis, tetanus, HIB, hepatitis A, hepatitis B, influenza, varicella and pneumococcal. Tuberculin skin tests are also given. 24-hour taped information at (734) 544-6770. Call (734) 544-3066 for information on other immunization fees, vaccine availability and to schedule appointments.

**Insurance Applications** (734) 544-6700

Assistance in completing application forms for the following programs: Healthy Kids, MiChild, MOMS Insurance, and Plan First.

**LEAD Program** (734) 544-6700

Telephone follow-up of elevated lead levels by a public health nurse. Information, education and referrals provided. Home visits with Environmental Health if blood lead level warrants.

**Maternal Infant Health Program** (734) 544-6700

Home-based services to Medicaid-eligible pregnant women and infants by a public health nurse, social worker and nutritionist. Services include: Support, education, referrals to community resources, infant developmental screening and information. Early On services are provided to infants who meet the criteria for supportive interventions.

**Public Health Emergency Preparedness** (734) 544-6700

Emergency preparedness information and training provided. Services include presentations, materials and consultation for families, individuals and community organizations.

**Substance Abuse Prevention** (734) 544-6700

Consultation for non-profit agencies providing scientific- and research-based substance abuse prevention programming for residents of Livingston and Washtenaw counties.

**Washtenaw Health Plan (WHP)** (734) 544-3030 or 1-866-291-8691

Call this number for enrollment in the Washtenaw Health Plan, a program for low-income Washtenaw County residents who are uninsured.

**West Nile Virus (WNV) Hotline** (734) 544-6750

Call for the following: Reporting and testing of dead crows, ravens and blue jays; information on WNV symptoms; mosquito protection; horses, dogs and cats and WNV; and community mosquito control and resources.

**Women, Infants & Children (WIC)** (734) 544-6800

WIC provides supplemental food, nutrition education and referrals. The program serves pregnant, breast-feeding and post-partum women and their children under age 5 who are "nutritionally at risk." Call for an appointment, clinic locations or more information.
