

Their stories stretch from just one lost job to
a job that never earns enough, to rarely able to work.
They are young and they are old; different colors, shapes & stories.

But all had one thing in common: when they got sick, they got scared. They were uninsured.

Today, smiles tell a different story.
In our community we have hundreds of doctors, nurses and health care providers
who generously offer their services to members of the Washtenaw Health Plan.

“It’s a miracle. It’s changed every part of my life.”

**For being part of a miracle, for changing lives,
for enriching this community -
we are deeply grateful for your continuing support.**
