

Notice is hereby given that the Washtenaw County Drain Commissioner will hold a public hearing on the proposed State Revolving Fund Project Plan for the Allen's Creek watershed for the purpose of receiving comments from interested persons. The hearing will be held from 7:00-8:30 pm on Wednesday June 18, 2008 at Community High School located at 400 N. Division Street, Ann Arbor, Michigan.

The purpose of the proposed project plan is to secure low interest funding for non-point source water quality treatment improvements in the Allen's Creek watershed. The purpose of this project is to help reduce storm water pollutants, flooding and flow to Allen's Creek and the surrounding neighborhoods by retaining, delaying and infiltrating the storm water runoff. Five projects sites are being proposed based on the potential storm water management opportunities they provide to the watershed as well as eight additional future project sites.

This project will be funded through loans from the State of Michigan Revolving Fund. Loan obligations will be assessed to the Allen's Creek Drainage District; the City of Ann Arbor, MDOT and Washtenaw County. There will be no additional financial impacts assessed to property owners for the projects. Copies of the project plan detailing the proposed projects will be available for public review on May 16, 2008 on the fourth floor at Systems Planning of the Ann Arbor City Hall, on the second floor of the Western Service Center, 705 N. Zeeb Road and on the WCDC web site.

Written comments received through June 17, 2008 will be entered into the public hearing record and should be sent to the Washtenaw County Drain Office, Attention: Harry Sheehan, 705 N. Zeeb Road, Ann Arbor, Mi, 48107-8546
