

TABLE OF CONTENTS

List of Acronyms	v
Executive Summary	vi
Introduction	1
What is the Malletts Creek Restoration Project?	2
Potential Funding Opportunities and the Clean Michigan Initiative	2
Goals of the Restoration Project	4
Decision Making Process	4
Public Involvement	5
Background and Current Conditions	6
Location	6
Land Use	6
Hydrology	9
Fish Survey	9
Designated Uses	9
1995 MDEQ Phosphorus Data	10
Aesthetics and Ecological habitat	11
Restoration Project Findings	12
Data Collection	12
Bioassessment of Malletts Creek	12
Macroinvertebrate Surveys	12
Stream Walk-over Survey	15
Reach 1	17
Reach 2	17
Reach 3, 4, 5, 6 and 7	17
Reaches 8 and 9	18
Detention Pond Survey	18
1999 Water Quality Sampling	18
Channel and Culvert Survey	20
ROW/Easement Information	23
Channel and Culvert Cross-sections	23
Evaluation Results	23
Hydrologic/Hydraulic Analysis	23
Background	23
Results	24
Water Quality Analysis	29
Model Calibration	31
Results	32
Comparison to Previous Loading Estimates	33
Conclusions	33
Ordinance Review	35
Storm Water Management	35
Best Management Practices	38
Restoration Activities	39
Goal: Reduce Total Phosphorus in the Creek by 50%	39
Goal: Improve habitat for Fisheries	39

Goal: Structural/Engineering Improvements -----	39
Eisenhower Office Park Area -----	40
Eisenhower Parkway West of State -----	40
Oakbrook Drive Area -----	40
Lansdowne Pond Area -----	40
Cranbrook Tower Area -----	40
Project #1: Illicit Discharge Elimination Program -----	44
Project #2: Sampling Program for Bacteria, Phosphorus and Benthics -----	44
Project #3: USGS Stream Gage -----	44
Project #4: Enforce Existing Ordinances -----	45
Project #5: Ordinance and Code Revisions for Storm Water Quality and Management -----	45
Project #6: Stream Maintenance (routine) -----	45
Project #7: Public Education Program -----	45
Project #8: In-system Storage Structures for Large Storm Drains -----	46
Project #9: Remedy 10-Year Storm Flooding Problems -----	46
Project #10: Investigate 100-Year Storm Flooding Problems and Determine Responsibilities -----	46
Project #11: Retrofit Detention Ponds -----	48
Project #12: Structural Repairs -----	48
Project #13: Residential Street Sweeping -----	49
Project #14: Brown Park Pond Improvements -----	49
Project #15: County Farm Park Wetland Pond -----	50
Project #16: Commercial Street and Parking Lot Sweeping -----	50
Project #17: Streambank Stabilization - Design and Implement -----	50
Project #18: habitat Improvements - Design and Implement -----	52
Project #19: Catch Basin Restriction Pilot Project -----	52
Project # 20: Catch Basin Cleaning -----	52
Public Involvement -----	54
The Public Involvement Process -----	54
Four Community-wide Meetings -----	54
Meeting #1 - Goal: Educate and inform -----	54
Meeting #2 - Goal: Introduce public to BMPs -----	54
Meeting #3 - Goal: Present draft restoration alternatives -----	54
Meeting #4 - Goal: Present final Restoration plan -----	54
Focus Groups -----	54
Focus Group/Interview Summaries -----	55
References -----	56

Table 12: Unit Costs Soil Bioengineering Methods (in 1997 dollars)	51

LIST OF APPENDICES

Appendix A: Summary of Grant/Loan Programs
Appendix B: Ann Arbor City Council Resolution
Appendix C: Summary of Public Involvement Program and Public Input
Appendix D: Bioassessment of Malletts Creek
Appendix E: Stream Walk-over Survey
Appendix F: Detention Pond Survey
Appendix G: Dry and Wet Weather Water Quality Sampling Results
Appendix H: Channel and Culvert Survey - Summary of Physical Impairments in Malletts Creek
Appendix I: Malletts Creek Right of Way Boundaries
Appendix J: Malletts Creek Cross Sections
Appendix K: Hydrologic/Hydraulic Modeling
Appendix L: Water Quality Modeling
Appendix M: Ordinance Review
Appendix N: Best Management Practices Report
Appendix O: Project Schedule and Supporting Costing Information
