Questions? Call 734-222-6860 or email drains@ewashtenaw.org

Some of the changes include:

- The SESC Program was transferred to the Office of the Water Resources Commissioner effective January 1, 2009
- Amendments to ensure permits, waivers and erosion control plan requirements are consistent with Part 91 revisions.
- No longer offering resource remediation as a performance guarantee for commercial project, only bonds will be accepted .
- Updating Enforcement language to be consistent with the state act.
- **Permits are good for one year after issue and can be renewed for six months.**
- **Construction cannot begin without an approved Soil Erosion Permit or penalties will apply.**
- **Please call to schedule the Final Inspection.**
